Advanced Placement Course Policy

Adopted March 13, 2006

Students who are removed from an Advanced Placement course will accept the following conditions for their removal from the class:

1. The student will no longer be a candidate for valedictorian/salutatorian honors.
2. If the transfer takes place within the first three weeks (fifteen school days) of the course, the student can earn no higher than a B in the course he or she transfers into.
3. If the transfer takes place from four to six weeks (sixteenth through thirtieth school day) into the course, the student can earn no higher than a C in the course he or she transfers into.

Advanced Placement enrollment will require a teacher/parent/student meeting to outline the specifics of the course, at which time a contract must be signed by both the student and parent(s) agreeing to the course expectations and the ramifications of transferring out of an AP course.

“The mission of Marshall County High School is to provide all students with a supportive learning environment in which they are challenged to reach their personal best.”
