

Success Voice Levels

VOICE LEVELS

0 Totally Silent

(Silent means absolutely NO TALKING!)

1 Whisper Voice

(A whisper is a very, very, very quiet voice. Only someone sitting right beside you will be able to hear what you say. You use a whisper voice when you want to tell someone a SECRET!)

2 Quiet Voice

(A quiet voice is just a little louder than a whisper! Use a quiet voice when you are talking to a small group of friends sitting beside or across from you. For example, use a quiet voice when you are working in small groups. Students in *other groups* should NOT be able to hear what you are saying.)

3 Conversation Voice

(A conversation voice is a normal speaking voice. This is the voice you use when you read aloud in class.)

4 Outside Recess Voice

(An outside recess voice is a very LOUD voice! Use this voice when you are on the playground playing Red Rover or soccer with your friends!)
