Program Review: Writing

Introduction

This report contains Program Review results for Writing. This program review is required as part of Kentucky's new assessment and accountability model. A Program Review is a systematic method of analyzing components of an instructional program, including instructional practices, aligned and enacted curriculum, student works samples, formative and summative assessments, professional development and support services, and administrative support and monitoring. (KRS 158.6453(l)(i))

Diagnostic tools to capture and report the results from these program reviews are contained in the AdvancED's Adaptive System of School Improvement Support Tools (ASSIST). ASSIST allows schools and institutions to gain better understanding of past successes and opportunities, and confidently build a solid, research-based improvement plan for the future.

Teachers are provided with a variety of resources for developing instructional practices.

We have worked with our district to develop a well established RTI program that includes a RTI Protocol and Implementation Guide. Our district has also provided a RTI coordinator who works with our school to monitor progress and provide research-based interventions for classroom teachers for tiered students. We use a variety of screeners to identify students who need services and a system is in place for continuous and consistent monitoring. A set time is allotted each day for students to receive RTI services. Our school has received grants from Americorp and Read to Achieve which has provided our school with 2 interventionists. Our RTA interventionist specifically works with K-2 students. Teachers, interventionists, administration, and the RTI coordinator meet monthly to review student progress and move students through the tiers based on data.

The rationale explains how the identified evidence supports the school's reported level of program implementation for the demonstrator.

The master schedule is set to ensure that grade-level teachers have common planning (PLC) at least four days a week. Common planning is used to develop assessments, rubrics, and create plans to implement various strategies.

They also work and plan with RTI group partners (Americorp, interventionists, Read to Achieve teacher) to plan interventions to use during flex time.

Teachers work together across the district to plan collaborative science units. Each grade level develops age appropriate rubrics and self-reflection tools.

Special ed teachers collaborate with general ed teachers to develop individualized education plans for students with special needs.

The master schedule also sets aside one instructional hour per day for rti grouping for language arts and math. No new content is introduced during this time.

Every grade level is provided with extra assistance as well as access to a computer lab to best meet the needs of all students at that grade level.

The students consistently uses technology/instructional resources including Moby Math, Coach Curriculum books, Xtra Math, special ed reading software (Essential Skills). Other technology such as ipads with a variety of instructional apps, SMARTBoards, Document Cameras, student computers used to enhance and differentiate instruction.

The rationale explains how the identified evidence supports the school's reported level of program implementation for the demonstrator.

Teachers develop lessons aligned to common core standards required by their grade level. Our content area programs (Math in Focus)

address the rigor and intent of the standards and include specific pacing guides. However, we do not have pacing guides in the area of reading. The grade-level teachers plan together to ensure that the pacing matches the group of students they are instructing. Learning targets are posted in classrooms and communicated in student friendly language. The master schedule does provide an hour per day for every grade level to work on students' individual needs. The grade level is assigned additional instructors during that time period to work with students (Americorp, Read to Achieve, SLPs and other assistants). The work that is done during this time is progress monitored and adjusted as needed.

The master schedule and budget that is approved by the SBDM Council provides the time and resources needed to support a very effective Primary Program. Funding from Americorp grant and RTA grant ensure that students are receiving RTI interventions and intensive interventions for students with significant reading delays.

During the 2013-2014 school year, SBDM developed a Primary Program policy concerning curriculum, instruction, and retention. Newsletters are sent home monthly about school happenings, meetings and other information including the primary program. The SBDM also reviews leadership survey data as well as school climate survey data.

During the 2013-2014 school year, a Parent Involvement Committee was developed and approved by SBDM.

The school uses the local newspaper, Facebook page, school website, and feedback from teachers to communicate with parents and the community. The website also contains parent information about suggested websites, homework and other issues. Parent/teacher conferences are held to explain student progress. Parents are given report cards and progress reports quarterly as well as STAR Parent reports.
